Introducing Scale Documentation for the Digital Age.

\$15⁹⁵
+ S&H

AERO-PAC

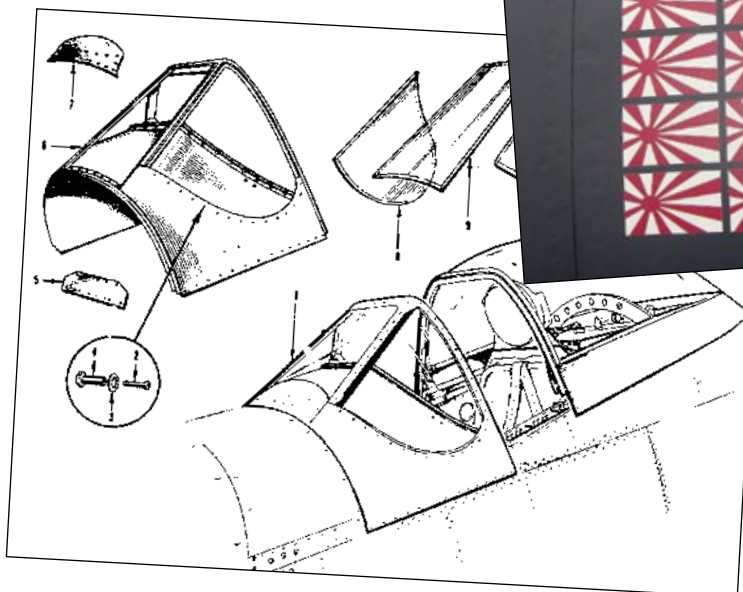

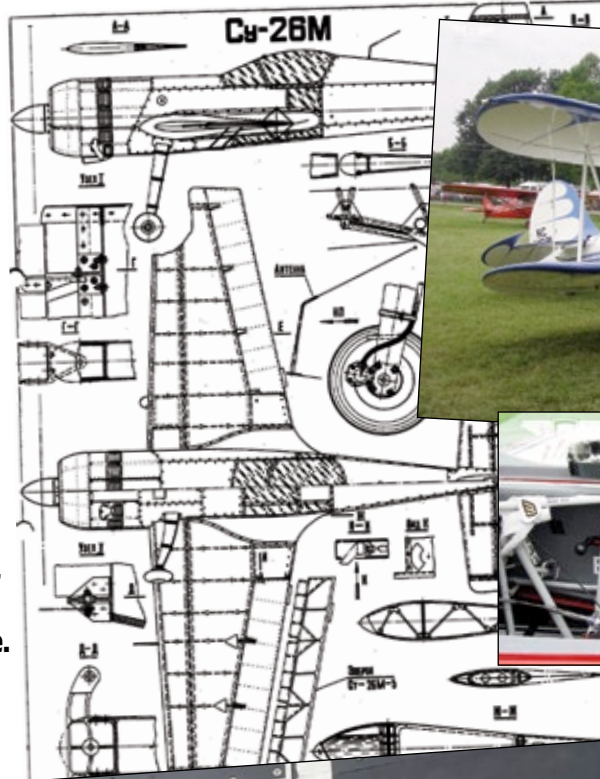

Tired of trying to build your scale project from tiny, blurry prints? Are you looking for something where you see **ALL** the details - including rivets, panel lines and nomenclature?

So are we, so we developed the Aero-Pac - an exciting new twist on scale documentation.

Each Aero-Pac is a digital library devoted to a specific aircraft; Cap 231, P-51D, J-3 Cub, Pitt S2C, SU-26, WMF-5, F-86F, etc.

All pictures are shot with the latest digital technology, capturing detail never before available from other sources. Since the files are digital, you can enlarge them on your computer screen, print enlargements and/or smaller copies using your color printer to use them for your final scale documentation package.

- Each Aero-Pac has an 8-point walk-around, exterior and interior details, enhanced close-ups, a 3-view and more!
- Each Aero-Pac is devoted to a single airframe.
- Incredibly large, detailed photos like you've never seen before.
- All digital technology.
- Viewable in any web-browser.
- Mac and PC compatible.
- For complete details & up-to-date listings, visit our web site.

Looking for something to wear to the field, your next airshow, contest, fly-in, or club meeting?

Our new Airborne Wear T-shirts are just the thing.

- Preshrunk - 100% cotton (white) - 6.1 ounce fabric weight -

- Vibrant color silk-screened art -

On the front, the Airborne Wear logo printed in the "pocket" position as shown here.
